Project Reassessment and validity extension of assessment and regulatory information report 21419

Dear Boris Iskra,

This letter is to confirm the extension of the validity of the assessment and regulatory information reports identified below.

Project number	Report no.	Report title	Current expiry date	New expiry date
FAS210081	21419 R6.0	Critical radiant flux (CRF) of solid timber (minimum thickness 12 mm) and plywood (minimum thickness 15 mm) when tested in accordance with AS ISO 9239.1:2003	30/04/2026	31/12/2026
	21419 RIR6.0			

We confirm that the validity of the above reports has been extended until 31 December 2026. This interim extension allows for a reassessment of the technical justifications, baseline test evidence, and conclusions in these reports in accordance with current assessment protocols.

Kind regards,

Prepared by
