

CONVERSATION STARTER

TIMBER FRAMING

Stands strong for more than 50 years

Timber-framed buildings can **deliver a service life of at least 50 years** when properly designed and maintained

WHY IT MATTERS

Timber buildings are designed to deliver decades of reliable performance.

TALKING POINTS

- Timber-framed buildings can achieve a service life of at least 50 years.
- Timber buildings are designed for long-term performance when properly maintained.
- Australian standards provide durability requirements for timber construction.
- Good design and maintenance help maximise building life.
